REPAIR REGULATIONS AND DEALER CERTIFICATION

This vehicle has been repaired with the equipment required under Section 14-63-4b of the Regulations of State Agencies using the standards established by the Inter-Industry Conference on Auto Collision Repair, Tech-Cor Inc., or other similar organizations including vehicle manufactures. This is defined as:

1. Apparatus permitting four (4) point clamping to secure the vehicle while making structural repairs;
2. Electrical or hydraulic pulling equipment appropriate to the type of repair;
3. Equipment for making three dimensional measurements for both symmetrical and asymmetrical vehicles;
4. Reference guides providing dimensions appropriate to the vehicle being repaired;
5. Welding equipment meeting vehicle manufacturer's requirement's for the specific structural repair;
6. Painting equipment capable of refinishing vehicles to the manufacturer's original specifications; and
7. Equipment for applying corrosion protection to the vehicle meeting the manufacturer's specifications.

I hereby certify, under penalty of false statement, that the information furnished above is true and complete to the best of my knowledge and belief.
